If your service is suspended due to non payment a reconnection fee of R75.00 will be imposed and will be billed immediately as a separate invoice.

It is the responsibility of the client to ensure that MegaHosting has their updated details, and this is available for each client to view in their client area. It is also the responsibility of the client to be in contact with MegaHosting to arrange for payment before the account is handed over.

Late payment for domain renewals

In order to avoid having your domain suspended due to late payment, please ensure you make payment prior to the due dates stated on the invoice for the renewal. Failure to do so may result in the domain becoming suspended and even being purchased by another entity while unpaid. Our renewal notices and invoices are sent out more than 30 days in advance, so ensure that your listed email address is the correct one with which to reach you.

Transferring of domains away

If you want to transfer, move, or cancel a domain, the abbreviated procedure is as follow:

Client submits cancellation request

2. New domain registrar initiates transfer
3. MegaHosting accepts transfer
4. Domain is transferred

It is imperative that you contact your new ISP before transferring a domain away so that this entire process can be facilitated. The essence of transferring a domain away is that the new ("incoming") ISP does most of the work. If the new ISP does pro-actively manage the transfer your domain might go into redemption and then get re-registered by another party.

Domain renewals .CO.ZA

MegaHosting uses the official South African domain registrar to register .CO.ZA domain names. This registrar provides an option to pay them directly instead of going via the ISP. The money MegaHosting collects for domain registrations and renewals are used to cover our administrative, billing, tech support, and infrastructure costs. For example, for every domain name that resides on our servers, we run fully redundant servers, locally, and internationally. If a client elects to pay the domain registrar directly instead of honouring our invoices, MegaHosting reserves the right to not host the client's DNS.

Backups for hosting packages

Daily backups are made of the web files on our servers and they are available in the event that your site needs to be restored. Please note that we do not offer any backups for mails linked to the domain hosted with us and suggest that you always ensure a local copy.

It is highly recommended that you also create a separate backup of all your DNS records, web files and mailbox content, to prevent loss of data as we do not guarantee backups. For more info on our backup services, visit our info page on Online Cloud Backup solutions.

Technical Support regarding overuse investigation

Our hosting and Internet access platforms already provide clients with detailed statistics of usage. Sometimes clients find it difficult to understand that they are using such a large amount of overuse. If a client is unable to resolve the issue using the tools at their disposal and they would like MegaHosting to investigate further, our Support team will be able to assist on this matter at a charge rate of R 200 per domain / account. Charges will not be applied should there be a system fault on MegaHosting's side. For further clarity on this please contact our help desk.

Transfer requests outside office hours

If a client wishes to transfer a domain out of office hours, the following policy applies:

The client must make sure the domain and all related services are paid up to date.

The incoming ISP must get confirmation in writing (e-mail is fine) that the accounts department will accept the transfer.

If the above procedure has not been followed the afterhours (emergency personal) will be unable to help.

Please note that all outgoing domain transfers are automated. If your domain or any of the related service are not paid up to date the domain transfer will be automatically declined. Manual override can only be done during office hours.

Transfer tickets are only accepted once the cancellation for the specific hosting product has been requested online in the client area by the client, and in accordance with MegaHosting's 30 day notice period for hosting product cancellations.

Termination of service

The General Terms of Service of this agreement commences on the Effective Date and will continue indefinitely, subject to termination by either party on 1 (one) calendar month prior, following our online cancellation procedure. Your services can only be cancelled if your account balance is R0.00 Cancellations are accepted by sending a cancellation request to accounts@megasurf.co.za. Cancellations are processed as follows:

Should the cancellation request be received before the 10th of the current month, this will result in the package being terminated (including all relevant files, information and history) on the 1st day of the following month. (E.g. The cancellation is received on 10 June, and the product will be terminated on 1 July.) Should the cancellation request be received after the 11th of the current month, this will result in the package being terminated (including all relevant files, information and history) on the 1st day of the second month. (E.g. The cancellation is received on 11 June, and the product will be terminated on 1 August.) Please note that the cancellation period is 90 days (3 Calendar months) in the case of clients who have an agreement contract service with MegaHosting. Clients who have signed any other agreements are excluded in this termination policy and are subjected to the signed agreement.

Installations – Use of own equipment or own installation done

MegaHosting does not bear responsibility for a lack in QoS (Quality of Service) of the package line stability and speed, when equipment is used for a wireless installation that is not purchased from MegaHosting directly or if the recommended equipment is not used.

Additionally, if the installation is done by anyone other than MegaHosting-approved contractors or employees through the official MegaHosting booking channels, MegaHosting reserves the right to charge for any changes or system corrections needed on client installations and networks as well as equipment to be purchased.

Criminal activity on MegaHosting's Network

No form of criminal activity will be tolerated on MegaHosting's network. This includes hacking or phishing or trespassing on any person's system and any other activity which is prohibited by the law. The normal turn of events is that the police will subpoena MegaHosting for the information. MegaHosting, however, reserves the right to disconnect a user's system until such time as the investigation is completed.
