Weekdays from 7am – 5pm and 8pm – 10pm. Weekends from 8am to 10pm

When requesting technical support, you will be given a ticket number. All our technical support cases are attached to a ticket number which we use to trace the issue through our system. Without a ticket number, we cannot process any support request. Should you not receive a ticket number by default, please ensure that you ask for one. If you require to escalate a call, ensure that you quote your ticket number when proceeding with the escalation request.

Please do not contact our Support Engineers directly on their personal e-mail address or via any of the chat programmes such as GChat or WhatsApp, as your query will not be handled efficiently. Our Support Department should not be contacted for any reason on their cell phone numbers when reporting a problem. Our system is set up to handle all technical support queries in an efficient manner and problems will only be addressed by following one of the three reporting methods above.

Wireless services – Speeds available

Please note that all Wireless services require a clear line of sight to our nearest tower in order to be effective. These services are provided on an “as is” and “up to” service level agreement. This means that although installations are done with high quality products and workmanship, the line speed achieved is not guaranteed. Variations may exist and if this is the case, we recommend downgrading to a slower package for stability. If you need a dedicated link please contact the office and we will gladly assist you. Megasurf will use reasonable and endeavours to make its services available to its Subscribers, and to maintain the availability thereof for use by its Subscribers. However, we provide the services “as is” and “as available” and we do not make any express or implied representations or warrant or guarantee the quality or security of the services or that the services will at all times be free of errors or interruptions, be always available, fit for any purpose, not infringe any third party rights, be secure and reliable, or will conform to your delivery timeline requirements subject always to the provisions of the CPA where applicable.
